## **Sustainn Findings**

Project Type: Regional Strategy towards a Circular Economy

## **3 Strategic Axes - 13 Strategic Lines - 48 Actions**

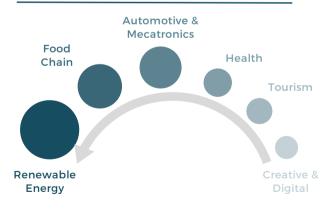

**Strategic Axes Strategic Lines** 1 Governance & Cooperation Awareness, Dissemination & Training **Boosting** Regulations Development **Circular Economy** Green Jobs Promotion Culture Incentives for Eco-Innovation Support for Natural Resources Circularity 2 Design. Promotion & Development of Ecodesign **Supply Chain,** Circular Supplies in Key Materials **Production &** Distribution Materials, Resources & Energy Efficiency 3 Prevention & Reduction of Waste **Consumption &** Circular Cities & Municipalities **Waste Management** Sustainable Mobility Green Public Procurement 2019 2030 Linear Circular

## **Key** Targets (\*)

- 1. Reduction of 45% of GHG emissions by 2030 (compared to 2005)
- 2. Reduction of 12% the waste generated (compared to 2010)
- 3. To reach 50% the renewable energies contribution in total energy consumption by 2030
- 4. 15% of transport needs covered with renewable energy

(\*) Main targets related to energy, emissions and waste

## **Priority** Sectors

Size represents the average level of application priority of the strategic lines in the different sectors

Collaboration project with a regional administration for the elaboration of a strategy for the transition of the region towards the Circular Economy
